

LOGIC MODEL EXAMPLE

This is an example of a logic model. This sample is for illustration only, and is not to be prescriptive for your proposed program.

Program Description (this is a fictitious program used for example only; you do NOT need to include a program description in your logic model): Farm Healthy is a program that partners with local farms to bring fresh produce, dairy and meat to low-income families through home deliveries. The program also includes community meals and nutrition education.
