

SAMPLE PROPOSAL ABSTRACT

Farm Healthy seeks funding to expand our community meal and home delivery programs. The goal of our programming is to alleviate hunger with food that is healthy, tasty and provided in a dignified manner. Our community meal program currently serves approximately 50 people a homecooked, healthy meal using fresh ingredients twice a week. Funding would expand the meal program to three times per week. Our home delivery program currently delivers boxes of fresh produce, lean meats and staples, such as spices, to 150 households each month. Funding would expand the number of households receiving a monthly delivery to 200.
